Maurizio Peruzzini

Department of
Chemical Science and
Materials Technology

National Research
Council of Italy

A unique platform of researchers,
technologists and industrial participants to discuss the latest
advances and breakthroughs in ceramic-based and inorganic materials linked
to hydrogen, low carbon
and high efficiency energy technologies.

**A GREAT NETWORKING OPPORTUNITY
TO SHARE NEW IDEAS AND KNOWLEDGE ON THE FOLLOWING TOPICS:**

**SOLAR
TECHNOLOGIES**

**SOLAR
AND BIO-FUELS**

**HYDROGEN
PRODUCTION &
STORAGE**

**2D
MATERIALS**

**THERMAL STORAGE
MATERIALS**

**FUEL CELLS AND
ELECTROLYZERS**

**ENERGY SAVING
& EFFICIENCY
MATERIALS**

**ADDITIVE
MANUFACTURING**

**THERMOELECTRICS
& PIEZOELECTRICS**

**BATTERIES AND
SUPERCAPACITORS**

**FOSSIL FUELS &
GAS SEPARATIONS
MEMBRANES**

**SMART
MOBILITY**

KEYNOTE SPEAKERS

Gabriele Centi

University of Messina
Italy

Mihails Kusnezoff

Fraunhofer Institute for Ceramic
Technologies and Systems
Germany

Mathias Noe
